Experience

Auriga IT | Software Development Engineer - I

Jaipur, Rajasthan | Feb 2025 – Present

- Implemented features within a **micro-frontend AEM architecture**, building reusable modules and optimizing shared components for improved build performance, deployment efficiency, and maintainability.
- Diagnosed and resolved production issues across the **AEM ecosystem**, including **logical bugs**, **critical CSS**, **SSR/hydration**, and **Akamai/Dispatcher caching**, while contributing to cross-package component development.
- Enhanced **AEM** page layouts and maintained consistent content structure across applications for improved maintainability.
- Contributed to **code reviews** and **technical discussions**, while conducting **knowledge transfer sessions** on AEM, project architecture, and development workflows for newly on-boarded team members.
- Delivered responsive website updates in **Framer**, implementing design refinements, variant fixes, and quality assurance under tight deadlines.
- Served as a **speaker** and **core organizing member** for a hands-on **Framer workshop**, delivering live demos and providing real-time technical guidance to participants.

Projects

Connect 4 (Real-time Multiplayer Online Game) | React, TypeScript, Firebase |

May 2025 – Aug 2025

- Engineered a fully interactive, real-time **Connect 4 multiplayer game** featuring a **room-based architecture** for seamless player matchmaking.
- Integrated **Firebase Firestore and Authentication** for instant game state sync and secure, **anonymous player access** without onboarding friction.
- Developed complete **room management** with unique room codes, session handling, and multi-user synchronization.
- Added rich **custom gameplay settings** — adjustable grid size, player count, and connect-win rules to enhance replayability.
- Improved engagement with **Framer Motion animations** and responsive UI design for consistent gameplay across devices.

Woody (E-commerce Platform) | React, Redux, Django, DRF, PostgreSQL |

Sep 2024 – Jan 2025

- Built a full-featured **e-commerce platform** tailored for furniture sales, integrating secure **user authentication** with **email verification** workflows.
- Built robust **RESTful APIs** with **Django REST Framework (DRF)** to handle product listings, authentication, cart operations, and order management.
- Leveraged **Redux** for scalable **global state management**, enabling real-time cart updates, user sessions, and order tracking across the platform.
- Designed and implemented product **search, filtering, and sorting** features to enhance browsing and purchase experiences.
- Created a **personalized user dashboard** where customers can view order history, track shipments, and manage profile details.
- Integrated **PostgreSQL** as a relational database solution, ensuring data consistency and optimized query performance.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, C/C++, Python, Java, SQL

Frameworks & Libraries: React, Redux, Tailwind CSS, Django, Django REST Framework

Platforms: Firebase, Adobe Experience Manager (AEM), Framer

Tools: Git, GitHub, Bitbucket, Jira, Browser DevTools, React DevTools, Redux DevTools, MySQL Workbench, PgAdmin, VS Code

Achievements

- Won **Vibe Coding Award** and **AWS Choice Award** at **Auriga Hackathon (Agentic AI Day)**.
- Earned **milestone badges** and **skill certifications** on LeetCode and HackerRank.
- Awarded **Elite Silver** in NPTEL courses including Machine Learning for Engineering and Science Applications, Public Speaking, and The Science of Happiness and Wellbeing.

Education

Poornima University — Jaipur, Rajasthan

Nov 2021 – May 2025

Bachelor of Technology in Computer Engineering

CGPA: 8.9
